

CURRICULUM VITAE

Name: John Joseph Orlando

Date /Place of Birth: February 25, 1960; Timmins, Ontario, Canada

Present Address: (Home) 185 Iroquois Drive, Boulder, CO 80303, 303-499-5642

(Work) National Center for Atmospheric Research, Atmospheric
Chemistry Observations and Modeling Laboratory, P.O. Box 3000, Boulder
CO 80307-3000, 303-497-1486

POSITIONS HELD

National Center for Atmospheric Research, Boulder CO (1989 – present)

Scientist I, Atmospheric Chemistry Division, December 1989 to June 1992.

Scientist II, Atmospheric Chemistry Division, July 1992 to July 1996.

Scientist III, Atmospheric Chemistry Division, July 1996 to July 2004.

Senior Scientist, July 2004 to present.

Deputy Director, Atmospheric Chemistry Division, Dec. 2009 to March 2015. Deputy Director, Atmospheric
Chemistry Observations and Modeling Laboratory, March 2015-present.

Cooperative Institute for Research in Environmental Science / NOAA Aeronomy Laboratory (1987-1989)

Research Associate, Atmospheric Chemical Kinetics Group, December 1987 to November 1989.

Supervisors: Dr. C.J. Howard, Dr. A.R. Ravishankara.

EDUCATION

Graduate School: McMaster University, Sept. 82 to Nov. 87, received Ph.D. in Chemistry.

Thesis: Time-resolved tunable diode laser detection of products of IRMPD of halocarbons.

Undergraduate: McMaster University, Sept. 1978 to April 1982, B.Sc., Honours Chemistry.

High School: Timmins High and Vocational School, Sept. 1973 to June 1978.

AWARDS

DATE

NCAR Special Achievement, Writing ACD Science Plan 2003

Velux Foundation Visiting Professor Fellowship,
University of Copenhagen 2002

AMS Special Award (for work on Editorial Board,
Glossary of Meteorology) 2001

SCHOLARSHIPS

DATE

NSERC Post-Doctoral Fellowship (declined)	1989
Hooker Graduate Scholarship	1982/83 to 1985/86
NSERC Post-graduate Scholarship	1982/83 to 1985/86
NSERC Summer Scholarship	1981 and 1982
Burke Memorial Ring	1982
BP Canada Scholarship	1981/82
J.L.W. Gill Scholarship	1981/82
University Scholarship	1979/80, 1980/81
TexasGulf Scholarship	1978/79 to 1981/82
Lloyd Memorial Scholarship	1978/79 to 1981/82
Deans' Honours List	1978/79 to 1981/82

SUMMARY OF RESEARCH AND RELATED EXPERIENCE

- A) Scientist I, Atmospheric Chemistry Division, National Center for Atmospheric Research, Boulder, Colorado, December 1989 to June 1992. Scientist II, July 1992 to July 1996. Scientist III, July 1996 to July 2004. Senior Scientist, July 2004 to present. Deputy Director, Atmospheric Chemistry Division / Atmospheric Chemistry and Modeling Laboratory, December 2009 to present.

Member of Laboratory Kinetics Group. Kinetics and mechanisms of chemical reactions in the atmosphere; photochemistry of atmospheric trace gases; IR and UV spectroscopy of atmospheric trace gases; development of chemical mechanisms for atmospheric chemistry studies. Techniques and equipment employed : environmental chamber / FTIR system for mechanistic studies of atmospheric reactions; microwave discharge - flow tube system; Ar⁺ ion-pumped ring dye laser for laser induced fluorescence; excimer pumped dye laser for quantum yield studies and pulsed laser induced fluorescence kinetics studies; atomic resonance fluorescence; pulsed excimer laser photolysis / time-resolved tunable diode laser absorption system for kinetics studies; flow-tube / chemical-ionization mass spectrometer system for mechanistic studies.

- B) Research Associate, Atmospheric Chemical Kinetics Group, NOAA Aeronomy Laboratory, Boulder, Colorado, December 1987 to November 1989. Supervisors: Dr. C.J. Howard, Dr. A.R. Ravishankara.

Spectroscopic studies of atmospheric trace gases; kinetics and mechanisms of atmospheric chemical reactions. Equipment used included: microwave-discharge/flow tube systems; FT-IR spectrometer for emission and absorption measurements; diode array spectrometer for UV/visible absorption studies.

- C) Ph.D. Thesis, McMaster University, Sept. 1982 to Nov. 1987.
Supervisors: Dr. D.R. Smith, Dr. J. Reid.

Used tunable diode lasers to detect the products of the IR multiphoton dissociation of halocarbons, both in cw and time-resolved experiments.

- D) Teaching Assistant, McMaster University. Sept. 1982 to April 1987.

T.A. in undergraduate labs (freshman chemistry, thermodynamics, reaction kinetics, instrumentation).

- E) NSERC Summer Research Student and Undergraduate Thesis Project
May 1981 to August 1982.
McMaster University and Canadian Center for Inland Waters.
Supervisors: Dr. D.P. Santry, Dr. J.J. McCullough, Dr. J. Carey.

UV photodegradation of substituted phenols in water; ab initio calculations on substituted phenols.

TECHNICAL ACCOMPLISHMENTS

Graduate School

Participated in the design, fabrication, and implementation of a pulsed CO₂ laser flash photolysis / time-resolved tunable diode laser IR absorption system for the production and study of free radicals.

Post-doctoral Work

Participated in the design, fabrication, and implementation of a temperature-regulated flow tube system. Interfaced a UV/visible Diode Array Spectrometer to this system.

NCAR

Designed and assembled a laser flash photolysis / resonance fluorescence system.

Designed and assembled a temperature-regulated UV/visible absorption spectrometer system.

Participated in the design, building, and testing of an excimer laser flash photolysis / time-resolved tunable diode laser system.

LEADERSHIP AND COMMUNITY SERVICE ACTIVITIES

NCAR ACD Seminar Coordinator, Fall 1990 to Fall 1993.

Session Co-convener, "Tropospheric Hydrocarbons: Measurements, Models, and Mechanisms", Fall AGU Meeting, San Francisco, December 1994 (joint with Suzanne Paulson).

Participant, The 1995 Methyl Bromide "State of the Science" Workshop, Monterey CA, June 1995.

Contributor to Scientific Assessment of Ozone Depletion: 1998, Chapter 2, Short-lived ozone-related compounds.

Invited participant in Pellston Workshop entitled "Evaluation of persistence and long-range transport of organic chemicals in the environment", organized by The Society of Environmental Toxicology and Chemistry (SETAC), 1998.

Co-editor of the ACD textbook, *Atmospheric Chemistry and Global Change*, Oxford Press, 1999.

Co-editor, *Glossary of Meteorology* (Atmospheric Chemistry section), American Meteorological Society, published in 2001.

Member of the Mozart Model Development team, 2001-present.

Contributing author, "Atmospheric Chemistry in an Changing World: An integration and synthesis of a decade of tropospheric chemistry research", IGAC report to summarize major achievements of atmospheric-biospheric chemistry community over the last decade, Springer-Verlag, 2003.

Contributing author and editor, ACD Strategic Plan for 2003-2009, completed in 2003.

Contributing author to UT/LS white paper entitled, "Radical Chemistry in the Upper Troposphere/Lower Stratosphere: A Summary of Current Scientific Issues and a Proposed Observational Study", 2003.

Member of scientific steering committee for the MIRAGE field campaign, 2003-2005.

Member of Editorial Advisory Board, *International Journal of Chemical Kinetics*, 2004-2006.

Member of the scientific steering committee, "Transport and Air Pollution", International Scientific Symposium held in Boulder CO, September 2004.

Session Co-convenor, "Biogenic Compounds and Secondary Organic Aerosol", Fall AGU Meeting, San Francisco, December 2006 (with Jim Burkholder, NOAA).

Lead organizer for ACD participation in the OASIS (Ocean-Atmosphere-Sea Ice-Snowpack) workshop field project (Barrow, AK, Feb.-Apr., 2009). Local organizer of OASIS workshops, held in Boulder, July 9-10, 2007 and June 9-10, 2008.

Co-Chair, Atmospheric Chemistry Center for Atmospheric Research and Data (ACCORD) Science Committee, 2014-present.

Regular reviewer of articles for several journals (*Journal of Geophysical Research*, *Geophysical Research Letters*, *Chemical Physics Letters*, *Journal of Physical Chemistry*, *International Journal of Chemical Kinetics*, *Atmospheric Environment*, *Environmental Science and Technology*, *Atmospheric Chemistry and Physics*, *Physical Chemistry Chemical Physics*, etc.), and also of proposals for various agencies (NSF, NASA, DOE, Petroleum Research Fund, etc.).

EDUCATIONAL ACTIVITIES

Lectured at the NCAR ASP Summer School, Observational Techniques in the Atmospheric Sciences, Summer 1992.

Supervisor for NCAR Summer Employment Program students, Alvin Huang (Summer 1991) and Edgar Estupiñan (Summer 1995).

Presented introductory lectures on atmospheric chemistry to undergraduate students at the University of Colorado - Colorado Springs (April 1994) and Regis University (April 2000).

Supervisor, senior research project of Chris Ceazan, undergraduate student at Metro State University, 1999-2000.

Supervised four undergraduate exchange students (S. Haberkorn, A. Zimmer, S. Amann, K. Henning) from the Louis Pasteur Institute, Strasbourg France.

Velux Foundation Visiting Professor Fellowship, University of Copenhagen, summer 2002.

Scientific mentor for SOARS student, Cherelle Blazer (Summer 2004).

Hosted and supervised Angelita Denny, M.Sc. student at University of Arizona, for three summers (2008-2010).

Participated in guiding and/or supervising the research of other graduate and undergraduate students (C. Roehl, C. Kegley-Owen, T. Møgelberg, M. Bilde, C. Bacher, P. Cassanelli, K. Feilberg, Hongyi Hu, many students from Fresno State), post-doctoral fellows (S. Paulson, T. Staffelbach, J.-M. Fracheboud, L. Iraci, B. Nozière, Y. Tang), and visitors (G. Vazquez, C. Ferronato, B. Ramacher, A. Pimentel, C. Blazer).

Thesis committee member, Josh McGrath, Ph.D candidate, University of Colorado, 2008-2010.

Lead organizer and a lecturer for a graduate-level course on Atmospheric Chemistry provided to students at North Carolina Agricultural and Technical State University, Greensboro NC.

Guest lecturer, University of Oklahoma School of Meteorology, Fall 2013, 2014, 2015, 2016. Presented four lectures per year on Atmospheric Chemistry to first-year graduate students, as part of a course entitled "Fundamentals of Atmospheric Science."

PROPOSALS FUNDED

1. J.J. Orlando, G.S. Tyndall, C.A. Cantrell, R.E. Shetter, and J.G. Calvert, Atmospheric chemistry of methylglyoxal, funded by Coordinating Research Council, 1992.
2. G.S. Tyndall, J.J. Orlando, A. Fried, C.A. Cantrell, J.G. Calvert, Laboratory studies of homogeneous and heterogeneous stratospheric reactions involving halogenated reservoir species, funded by NASA Upper Atmosphere Research Program, 1992-1995.
3. G.S. Tyndall, J.J. Orlando, T.J. Wallington, A.J. Hynes, Chemistry of the upper troposphere and lower stratosphere, funded by NASA Upper Atmosphere Research Program, 1996-1999.
4. G.S. Tyndall, J.J. Orlando, Laboratory studies of upper tropospheric reactions, funded by NASA Upper Atmosphere Research Program, 1999-2002.
5. G.S. Tyndall, J.J. Orlando, Laboratory studies of upper tropospheric reactions, funded by NASA Upper Atmosphere Research Program, 2002-2005.

6. J. Smith, L. Mauldin, J. Orlando, G. Tyndall, B. Lefer, and F. Eisele, Investigations into the role of organic compounds in aerosol processes, NCAR Director's Opportunity Fund, FY 2002.
7. J. J. Orlando, G. S. Tyndall, J. G. Calvert, T. J. Wallington, R. G. Derwent, Writing of a New Book: The Mechanisms of Atmospheric Oxidation of the Alkanes, funded by the Coordinating Research Council, November 2004 - November 2005.
8. G.S. Tyndall, J.J. Orlando, A. Hasson, F. Flocke, L. Emmons, Laboratory studies of upper tropospheric reactions, funded by NASA NNH05ZDA001N-AC, 2006-2009.
9. J. J. Orlando, J. G. Calvert, T. J. Wallington, M. Pilling, A. Mellouki, Writing of a New Book, "The Mechanisms of Atmospheric Oxidation of the Oxygenates", funded by the Coordinating Research Council, September 2007 – December 2008.
10. T. S. Dibble, G. Tyndall, J. Orlando, Isotope effects in methoxy radical kinetics, funded by NSF, Jan 2010 – Dec. 2012.
11. J. J. Orlando, J. G. Calvert, T. J. Wallington, W. H. Stockwell, Writing of a Book, "Chemistry of Tropospheric O₃ Generation and the Influence of Trace Gases", funded by the Coordinating Research Council, December 2011 – June 2013.

CONTRIBUTION TO BOOKS

Atmospheric Chemistry and Global Change, editors G. P. Brasseur, J. J. Orlando, and G. S. Tyndall, Oxford Press, New York, 1999. (co-author of five chapters, in addition to serving as co-editor).

Franklin, J., R. Atkinson, P. H. Howard, J. J. Orlando, C. Seigneur, T. J. Wallington, C. Zetzsch, 2000: "Quantitative determination of persistence in air", chapter in *Evaluation of Persistence and Long-Range Transport of Organic Chemicals in the Environment: Guidelines and Criteria for Evaluation and Assessment*, SETAC press, Pensacola, Florida.

Glossary of Meteorology, Second Edition, editor, Todd Glickman, AMS Press, Boston, 2000. (served on Editorial Board, as co-editor for Atmospheric Chemistry).

The Handbook of Environmental Chemistry, Ed.-in-Chief O. Hutzinger, author of chapter entitled "The atmospheric chemistry of organic bromine and iodine compounds", in volume 3, *Anthropogenic Compounds: Organic Bromine and Iodine Compounds*, Springer-Verlag, 2003.

Atmospheric Chemistry in a Changing World: An integration and synthesis of a decade of tropospheric chemistry research, co-author of Chapter 5, "Advances in Laboratory and Field Measurements", Springer-Verlag, 2003.

The Mechanism of Atmospheric Oxidation of the Alkanes, authors J. G. Calvert, R. Derwent, J. J. Orlando, G. S. Tyndall, and T. J. Wallington. Author of Chapter 3 (Kinetics of Reactions of Cl, O(³P), NO₃, and O₃ with the Alkanes) and Chapter 4 (Mechanisms and End-Products of the Atmospheric Oxidation of Alkanes), Oxford University Press, New York, 2008.

The Mechanism of Atmospheric Oxidation of the Oxygenates, authors J. G. Calvert, A. Mellouki, J. J. Orlando, M. J. Pilling, and T. J. Wallington, Oxford University Press, New York, 2011.

The Mechanisms of Reactions Influencing Atmospheric Ozone, authors J. G. Calvert, J. J. Orlando, W.R. Stockwell, and T. J. Wallington, Oxford University Press, New York, 2016.

INVITED TALKS

1. The photochemistry of methylglyoxal, presented at Dow Chemical Company, Midland MI, June 1993.
2. Chemistry of the Stratosphere: Factors Influencing the Ozone Layer, presented at University of Colorado - Colorado Springs, April 1994.
3. The atmospheric chemistry of bromine species, presented at the Ford Motor Co., January 1996.
4. The atmospheric chemistry of bromine species, presented at UCLA, January 1996.
5. NMHC Oxidation Mechanisms: The role of the alkoxy radical, presented at the NOAA Aeronomy Laboratory, November 1996.
6. Laboratory studies of the oxidation mechanism of biogenic hydrocarbons, Regis Univ., April 2000.
7. Atmospheric chemistry of unsaturated hydrocarbons, Georgia Institute of Technology, Jan. 2002.
8. The OH-initiated oxidation of OVOCs, terpenes, and isoprene: Some recent data, Gordon Conference on Biogenic Hydrocarbons, Oxford UK, September 2002.
9. Atmospheric chemistry of unsaturated hydrocarbons, Univ. of Copenhagen, September 2002.
10. Laboratory studies of hydrocarbon oxidation mechanisms: Some recent results, NOAA Aeronomy Laboratory Seminar Series, January 2003.
11. The atmospheric chemistry of alkoxy radicals: Recent studies of ethers and esters, plenary lecture, Sixth International Conference on Chemical Kinetics, July 2005, NIST, Gaithersburg, MD.
12. Lifetimes and chemical processing of biogenics: A "status report", at "Planning a New Direction for Research, Biogenic Hydrocarbons: Emissions, aerosol formation, and climate impacts" workshop, Oct. 2006, Boulder CO.
13. Atmospheric chemistry of hydrocarbon oxidation: Recent data and lessons learned, American Chemical Society Spring 2008 National Meeting, New Orleans, LA, April, 2008.

14. Temperature- and pressure-dependent aspects of the hydrocarbon oxidation process, Atmospheric Chemical Mechanisms Conference, Davis CA, Dec. 2008.
15. Laboratory studies of hydrocarbon oxidation mechanisms under atmospheric conditions, University of Wisconsin-Madison Chemistry Dept., February 2010.
16. Gas-phase chemistry of biogenic hydrocarbons: A status report, Gordon Conference on Biogenic Hydrocarbons, Les Diablerets Switzerland, May 2010.
17. Overview of recent activities in the Lab Kinetics group in NCAR/NESL/ACD, Workshop on New Insights into Gas-Phase Atmospheric Chemistry, Telluride CO, August 2010.
18. Recent Advances in the Determination of the Oxidation Mechanisms of Isoprene and its By-Products, Atmospheric Chemical Mechanisms Conference, Davis CA, Dec. 2010.
19. Laboratory studies of hydrocarbon oxidation mechanisms under atmospheric conditions, North Carolina A&T State University, Greensboro, N.C., February 2011.
20. Laboratory studies of hydrocarbon oxidation mechanisms under atmospheric conditions, McGill University, Montreal Quebec Canada, August 2011.
21. Update on recent activities in the Lab Kinetics group in NCAR/NESL/ACD, Workshop on New Insights into Gas-Phase Atmospheric Chemistry, Telluride CO, July / August 2012.
22. Laboratory studies of hydrocarbon oxidation mechanisms under atmospheric conditions, Penn State University, State College, PA., March 2014.
23. Update on recent activities in the Lab Kinetics group in NCAR/NESL/ACD, Workshop on New Insights into Gas-Phase Atmospheric Chemistry, Telluride CO, July / August 2014.
24. Laboratory studies of hydrocarbon oxidation mechanisms under atmospheric conditions, University of Oklahoma, Norman, OK, September 23, 2014.
25. J.J. Orlando, BVOC Oxidation Mechanisms: Connecting the Laboratory and the Field (and the Models and the Theory), invited introductory presentation, Atmospheric Chemistry Gordon Conference, Waterville NH, August 6, 2015.
26. Laboratory studies of hydrocarbon oxidation mechanisms under atmospheric conditions, University of Colorado-Denver, October, 2015.

OTHER TALKS AND CONFERENCE PRESENTATIONS

1. J. J. Orlando, D. R. Smith, P. H. Beckwith, and J. Reid, Technique for detecting ppm of DCI using tunable diode laser absorption spectroscopy, Regional Symposium on Molecular Dynamics and Photodissociation, Waterloo, Ont., Sept. 27, 1985.

2. J. J. Orlando, D. R. Smith, P. H. Beckwith, and J. Reid, IRMPD of $\text{CDCl}_3/\text{CHCl}_3$ (poster), Regional Symposium on Molecular Dynamics and Photodissociation, Waterloo, Ont., Sept. 27, 1985.
3. J. J. Orlando, J. B. Burkholder, C. J. Howard, Quantitative UV and IR absorption spectroscopy of Cl_2O_2 , Canadian Chemical Conference, Victoria, B.C., June, 1989.
4. J. J. Orlando, G. S. Tyndall, C. A. Cantrell, R. E. Shetter, and J. G. Calvert, Rate coefficient determinations for the reaction pair $\text{NO}_3 + \text{NO}_2 + \text{N}_2 \rightarrow \text{N}_2\text{O}_5 + \text{N}_2$ (poster), XIX Informal Conference of Photochemistry, Ann Arbor, MI, June 1990.
5. J. J. Orlando, G. S. Tyndall, G. K. Moortgat, J. G. Calvert, Quantum yields for O atom production from the photolysis of NO_3 (poster), XX Informal Conference on Photochemistry, Atlanta, May 1992.
6. J. J. Orlando, G. S. Tyndall, T. A. Staffelbach, J. G. Calvert, The Atmospheric Photochemistry of Methylglyoxal, Air and Waste Management Association 86th Annual Meeting and Exhibition, Denver CO, June 16, 1993.
7. J. J. Orlando, C. M. Roehl, G. S. Tyndall, R. E. Shetter, G. Vasquez, J. G. Calvert, Temperature dependent quantum yields for NO_2 photolysis near the dissociation threshold (poster), NATO ASI on Low Temperature Chemistry of the Atmosphere, Maratea, Italy, September 1993.
8. J. J. Orlando, Chemical Kinetics at NCAR: an overview, Max-Planck-Institute, Mainz Germany, September 1993.
