

DOUGLAS WILLIAM NYCHKA

Institute for Mathematics Applied to Geosciences
Computational and Information Systems Laboratory
National Center for Atmospheric Research
P.O. Box 3000
Boulder, CO 80307-3000

Voice: (303) 497-1711
Fax: (303) 497-2483
nychka@ucar.edu
www2.image.ucar.edu/staff/nychka-doug

Education

1978 B.A. Mathematics and Physics, Duke University
1983 Ph.D. Statistics, University of Wisconsin - Madison

Honors and Awards

1978 *Summa cum laude*, Duke University
1978 Julia Dale Mathematics Award Duke University
2003 Fellow, American Statistical Association
2004 Jerry Sacks Award for Multidisciplinary Research
2013 Distinguished Achievement Award ENVR Section American Statistical Association
2013 Achievement Award, International Statistics and Climatology Meeting
2015 Fellow, Institute of Mathematical Statistics

Professional Appointments

8/97 - present National Center for Atmospheric Research, Boulder, CO.
Visiting Scientist (8/97-7/99), Senior Scientist (8/99 - present),
Project leader (8/99 - 9/04) Geophysical Statistics Project,
Director (10/04 - present), Institute for Mathematics Applied to Geosciences (IMAGE)

7/83 - 6/99 Department of Statistics, North Carolina State University, Raleigh,
NC Assistant (7/83 - 6/89), Associate (7/89 - 6/94) and Full Professor (7/94 - 7/99),

1/94 - 7/03 National Institute of Statistical Sciences, Research Triangle Park,
NC, Senior Fellow (1/94 - 7/99) and Trustee (2000 - 2003)

6/93 and 6/08 Isaac Newton Institute for the Mathematical Sciences, Cambridge,
England, Visiting Scholar

5/88 - 6/88, 6/92 Statistics Group, University of Bath, Bath, England, Visiting Faculty

7/89, 8/90 - 12/90 Operations Research and Industrial Engineering Department, Cornell University, Visiting Faculty

Professional service and memberships

- Member, Program Committee, Year long program on Mathematical and Statistical Methods for Climate and the Earth System, Statistics and Applied Mathematical Sciences Institute, (2017 – 2018)
- Member, Scientific Advisory Board, Pacific Institute of Mathematics, University of British Columbia, CA (2015 –)
- Member, Scientific Advisory Board, European Union Surface Temperature for All Corners of Earth (EUSTACE), (2015 –)
- Member, Scientific Advisory Board, Canadian Statistical Sciences Institute, (2015 –)
- Member and Chair, Board of Governors, Institute for Mathematical Applications, University of Minnesota (2011– 2015)
- Member, National Research Council Study on Verification & Validation and Uncertainty Quantification, (2010-2012)
- Member, Committee on Surface Temperature Reconstructions for the Last 2,000 Years, National Research Council (2006)
- Member and Chair, Scientific Advisory Panel, Center for Integrating Statistics and Environmental Sciences, University of Chicago (2003– 2006)
- Member, Committee on Applied and Theoretical Statistics (CATS), Board on Mathematical Sciences, The National Academies (2002 – 2005)
- Program Chair, 1994 Regional Institute of Mathematical Statistics Meetings, Birmingham, AL
- Associate Editor
Technometrics (1995-1998)
Journal of Nonparametric Statistics (1991–1995)
Journal of the Royal Statistical Society Series B (1992–1994)
International Statistical Review (1992–1994)
Statistical Science (1999–2003)
Journal of the American Statistical Association (2005 – 2007)
- Reviewer
National Science Foundation, mail reviewer and panelist
American Statistician, *Annals of Statistics*, *Annals of Applied Statistics* *Biometrics*, *Econometrics*, *Environmetrics*, *Journal of Climate*, *Journal of the American Statistical Association*, *Journal of Microscopy*, *Letters in Statistics*, *The Institute of Statistical Mathematics*, *Nature*, *Technometrics*, *Spatial Statistics*
- Memberships
American Statistical Association, *Institute of Mathematical Statistics*, *Society for Industrial and Applied Mathematics*, *American Geophysical Union*, *American Meteorological Association*, *American Meteorological Association*

- Berliner, L.M., Nychka, D. and Hoar, T. (2000). *Statistics for Understanding the Atmosphere*, Springer Verlag, New York.

Educational Materials

- Data Science 101
Hands-on data analysis is used to introduce statistical concepts, teach how to program in R, and solve practical data science problems. Taught twice as APPM2720 Spring 2015, Spring 2016, University of Colorado - Boulder.
- Spatial statistics short course
A four lecture series to introduce the concepts and extensions of modern spatial statistics and curve and surface fitting.
- Nychka, D. and Boos, D. (1993). *S Lab: A series of labs for teaching statistics and data analysis*. (A statistics lab manual and a set of approximately 60 *S* functions for teaching concepts of data analysis and probability.)
- Nychka, D. (1992). *Probability and Statistics for Engineers and Scientists*. North Carolina State University Video Extension Service.
A series of 70, 50 minute video taped lectures covering the principles of probability, basic statistics, regression and experimental design.

Software

Invited presentations

Invited talks, seminars and short courses since October 2012 and grouped by fiscal year (FY): 10/1-9/30 with approximate audience size ().

- Presentations FY17
Pattern Scaling of Climate Models
November 2017, KAUST, Saudi Arabia (30)
July 2017, Data Science and the Environment, Brest, FR (60)
July 2017, University of Lancaster, UK (60)
September 2017, Colorado School of Mines
Estimating Curves and Surface
April 2017, University of Maryland-Baltimore Campus, (60) 4 lectures

Spatial statistics

May 2017, University of Fudan, Shanghai, PRC, (35) 9 Lectures

Regional Climate and Extremes

October 2016, STATMOS Workshop on Extremes, College Station, PA (35)

Environmental Statistics at NCSU

October 2016, 75th Anniversary Department of Statistics, North Carolina State University, Raleigh, NC (70)

Solving Inverse Problems

October 2016, Reed College, (45)

Multi-resolution spatial methods: LatticeKrig

April 2017, CSU, (45)

- Presentations FY16

Multi-resolution spatial methods: LatticeKrig

October 2015, KAUST, Saudi Arabia, (25)

November 2015, Big Data and the Environment, Buenos Aires (50)

March 2016, Arizona State University, Tempe, AZ (40)

March 2016, ETHUniversity Zurich, Zurich, CH (40)

Spatial Statistics

July 2016, Environmental Analytics, NCAR (2 Lectures) (30)

July 2016, Regional Climate Tutorial, NCAR (MMM) (60)

April 2016, Colorado School of Mines, Golden (25)

June 2016, R Bootcamp , NCAR (10)

Hierarchical Models

July 2016, Beyond P-values, NCAR (25)

Regional Climate and Extremes

April 2016, Theme-of-the-Year, NCAR, Boulder (45)

June 2016, BIRS, Banff, CA (30)

September 2016, Climate Informatics, NCAR (60)

Pattern Scaling of Climate Models

June 2016, 13th International Statistics and Climate Conference, Canmore , CA (60)

Are Climate Models Built Using Statistics?

August 2016, Joint Meetings American Statistical Association, Chicago, (60)

Data analysis for extremes

August 2016, Tutorial CMIP5 Analysis Platform, NCAR (45) 2 Lectures

- Presentations FY15

Uncertain Weather, Uncertain Climate

October 2014, University British Columbia, Vancouver, CA (50)

Statistical inference for spatial data

November 2014, University of Kansas, Lawrence, KA (45)

What would a statistician do with 10 seconds on a super computer?

November 2014, University of Kansas, Lawrence, KA (45)

Multi-resolution spatial methods: LatticeKrig

October, 2014, University of British Columbia, Vancouver, CA (45)

November 2014, Michigan State University, E. Lansing, MI (45)

April 2015, University of Indiana (20)

June 2015, Summer Research Conference on Statistics, Carolina Beach, NC (50)

July 2015, Joint Statistical Meetings, Seattle (60)

August 2015, University of Colorado-Denver, (25)

September 2015, Colorado School of Mines, (25)

Regional climate informatics

January 2015, Seismometrics, Valparaiso, Chile (50)

Spatial Statistics

March 2015, Indian Statistical Institute, Kolkata, IN (2 Lectures) (30)

July 2015, Data Analytics for Ecologists, NCAR (25)

July 2015, Regional Climate Short Course, NCAR (50)

A Statistical Excursion with DART

May 2015, STATMOS/Data Assimilation Short Course NCAR (20)

Bayesian Hierarchical Models

April 2015, University of Indiana (20)

Regional Climate and Extremes

May 2015, Pacific Institute of Mathematics, Vancouver, (40)

June 2015, BIRS, Banff, Alberta, (30)

April 2016, Theme-of-the-Year, NCAR, Boulder (45)

Asymptotic theory for spatial methods

June 2015, Aalborg University, Aalborg, Denmark (30)

HPC4Stats

September, 2015, STATMOS short course, University of Michigan, (25)

Pattern Scaling of climate models

June 2016, 13th International Statistics and Climate Conference, Canmore, CA

- Presentations FY14

DART and Ocean Data Assimilation

October 2013, Role of the Oceans in Climate Uncertainty, BIRS, Banff, Alberta, CA (30)

Uncertain Weather, Uncertain Climate

October 2013, Department of Statistics, Brigham Young University, Provo, UT (60)

Regional Climate past, present and future

November 2013, Royal Statistical Society and the American Statistical Association, London, UK (75)

Regional Climate, Extremes and Spatial Data

February, 2014, AAAS meeting, Chicago (10)

Multi-Resolution Spatial Methods for Large Data Sets

November 2013, Exeter University, Exeter UK, (45)

November 2013, CISL Work in Progress (30)

February 2014, University of Chicago, Chicago, IL (35)
February 2014, Harvard University, Boston, MA (30)
April 2014, SIAM/ASA Uncertainty Quantification, Savannah, GA, (4 Lectures) (45)
April 2014, National Science Foundation, Arlington, VA (30)
May 2014, University of Glasgow, Scotland, UK (35)
June 2014, Conference on Nonparametric Statistics for Big Data and Celebration to Honor Professor Grace Wahba, Madison, WI

Uncertain Weather, Uncertain Climate

May 2014, University of Glasgow, Scotland, (35)

Estimating Curves and Surfaces (4 Lectures)

March 2014, KAUST, Saudi Arabia (45)

Statistical inference for spatial data

July 2014, SAMSI/IMAGE Summer Program: The International Surface Temperature Initiative

Reconstructing CO₂ for the past 2000 years

August 2014, Joint Statistical Meetings, Boston, MA (20) (Invited poster session)

What would a statistician do with 10 seconds on a super computer?

August 2014, Joint Statistical Meetings, Boston, MA (50)

- Presentations FY13

Multi-Resolution Spatial Methods for Large Data Sets

October 2012, U Arizona, Tucson, AZ (60)

December 2012, Stanford U, Palo Alto, CA (40)

February 2013, SAMSI Large Datasets, NCAR (50)

March 2013, Iowa State U, Ames, IA, (60)

May 2013, SIAM Data Mining Conference, Austin, TX (100)

June 2013, International Meeting on Statistics and Climatology, Jeju, South Korea (75)

July 2013 NSF Expeditions Workshop, Evanston, IL (40)

September 2013, Third Workshop on Bayesian Inference for Latent Gaussian Models, Reykavik, Iceland (60)

Statistical Methods for Nonstationary Spatial Data

December 2012, American Geophysical Union, San Francisco, CA (75)

June 2013, International Meeting on Statistics and Climate, Jeju, South Korea (50)

August 2013, American Statistical Association Annual Meeting, Montreal, CA (75)

Uncertain Weather, Uncertain Climate

March 2013, Invited University Lecture, U Toronto, CA (60)

October 2013, Department of Statistics, Brigham Young University, Provo, UT (60)

Advisement of Doctoral Students

North Carolina State University

Thomas Filloon, Statistics May 1990

Kristen Meier, Statistics May 1990

Gary Kenney, Computer Science 1992 (committee co-chair)

Ju-Chin Huang, Economics and Statistics May 1994 (committee co-chair)

Mark Graham, Electrical Engineering 1993 (committee co-chair)

Bruce Elsheimer, Statistics December 1994
Barbara Bailey, Biomathematics May 1996
Jeffrey Andrew Royle, Statistics May 1996
David Cummins, Statistics May 1997
Jun Zhai, Statistics December 1997
Sarah Hardy, Statistics December 1998
Jung-min Baik, Statistics August 1999 (committee co-chair)

NCAR

Eric Gilleland, Statistics, Colorado State Univ., December 2004
Curtis Storlie, Statistics, Colorado State Univ., June 2005 (committee member)
Daniel Cooley, Applied Mathematics, CU-Boulder, August 2005 (co-chair)
Cari Kaufman, Statistics, Carnegie Mellon Univ., August 2006 (committee member)
Chris Paciorek, Statistics, Carnegie Mellon Univ., August 2006 Terry Lee, University of Victoria, March 2008 (external reviewer)
Suz Tolwinski-Ward, University of Arizona, July 2012 (committee member)
Whitney Wang, Purdue University, August 2017 (thesis advisor)
Collette Smirniotis, San Diego State University, *current* (committee member)

Postdoctoral mentoring

* indicates role as a co-mentor, (latest organization of employment)

Laura J. Steinberg 1995 (Syracuse University)*
Barbara Bailey, 1997 (San Diego State University)*
Jeffrey Andrew Royle, 1997 (USGS Patuxent Wildlife Research Center)*
Chris Wikle, 1997 (University of Missouri) *
Montserrat Fuentes, 1999 (Virginia Commonwealth University)
Phillippe Naveau, 1998 - 2001 (Laboratoire des Sciences du Climat et l'Environnement)
Claudia Tebaldi, 1998 - 2000 (National Center for Atmospheric Research)
Sarah Sreett, 2000-2003 (National Institute of Standards and Technology)
Ulrike Schnieder 2003 - 2005 (Vienna University of Technology)
Daniel Cooley, 2005 - 2007 (Colorado State University)*
Dorin Drignei 2005 -2007 (Oakland University)
Reinhard Furrer 2002-2005 (Universität Zürich) Bo Li 2007 - 2009 (University of Illinois)
Cari Kaufman 2006 - 2008 (University of California- Berkeley)
William Kleiber 2010-2012 (University of Colorado)*
Matthew Heaton 2011-2013 (Brigham Young University)*
Suz Tolwinski-Ward 2012 -2014 (Air Worldwide)
Martin Tingley 2010 - 2011 (Netflix)
Stacy Alexeeff 2013 - 2015 (Kaiser Permanente Northern California Division of Research)
Kevin Dalmasse 2014-2017 (CNES Observatoire Midi-Pyrnes, Toulouse)*

Grants and Contracts

- Scalable Statistical Validation and Uncertainty Quantification for Large Spatio-Temporal Datasets PI 2015 - \$75,090.00
- NSF Collaborative Research: Characterizing 21st Century Extremes for Engineering and Evaluating Robust Infrastructure Designs coPI 2016 - present

- NSF Assessing and Improving the Scale Dependence of Ecosystem Processes in Earth System Models. coPI 2011- \$896,674
- NSF Mathematical Sciences: Multi-resolution lattice models and theory for spatial process estimators coPI 2007 - 2011 \$227,844
- NSF Atmospheric Sciences CMG Collaborative Research: Development of Bayesian Hierarchical Models to Reconstruct Climate Over the Past Millenium PI 2007-2011 \$379,637
- NSF Atmospheric Sciences The North American Regional Climate Change Assessment Program (NARCCAP)–Using Multiple GCMs and RCMs to Simulate Future Climates and Their Uncertainty coPI 2006- present \$941,779
- NSF Mathematical Sciences: A Statistics Program at the National Center for Atmospheric Research. 2004-2007 PI \$1,240,000
- US EPA: Design Interface for Spatial Analysis of Monitoring Networks. 2000, \$24,900
- NSF Spatial Data and Scaling Methods for Assessment of Agricultural Impacts of Climate Managing Multiple Sources of Uncertainty Over Space. coPI 2000 \$725,000.00
- NSF Mathematical Sciences: A Statistics Program at the National Center for Atmospheric Research. co-PI 1999-2004 \$3,000,000
- NSF Mathematical Sciences: Process Design, Modeling and Optimization in Electronics and Health Care Products. 1997, \$70,800
- Becton Dickinson Research Center: Nonparametric Regression and Sequential Designs for Process Optimization. 1996, \$8,190
- EPA Cooperative Agreement: Statistical Strategies for Monitoring and Assessing Environmental Changes and Effects. 1995, \$404,000 (co-PI)
- Becton Dickinson Research Center: New Directions in Process Optimization. 1994, \$8,108
- NSF Mathematical Sciences: Estimation and Inference for Nonlinear Systems. 1993, \$119,876
- NSF Atmospheric Sciences: Microscopic and Macroscopic Approaches to Climate Dynamics. PI 1992, \$54,137
- NSF SCREMS program: Estimation and Inference for Noisy Chaotic Systems. coI \$36,000
- NSF Mathematical Sciences: Applications of Smoothing Splines for Inference and Data Analysis. 1988, \$65,000
- NCSU faculty development: Estimating Tumor Size Distributions from Planar Cross Sections. 1984, \$3,494
- NSF SCREMS program: Data Analysis with Generalized Splines. 1984, coI \$45,000
